Chris Dekker

Software Engineer

👤 Profile

I'm a hard-working developer who has been in many development positions. Because of this, I'm able to quickly switch into any development role required and am able to use my prior knowledge to solve problems effectively.

I work on personal projects and learning new things in my spare time.

As I'm currently applying for a remote position, I'd like to note that I am willing to travel on occasion.

💼 Employment History

🎓 Education

MBO4 (Associate's degree) - Application Development, LOI (independent study), Groningen

July 2016 — July 2018

Diploma: no

This study is meant to finish the study I started at ROC. It covers the same information but as it is an independent study, I was able to go through it all at a faster pace.

MBO4 (Associate's degree) - Application & Media Development, ROC, Utrecht

February 2015 — February 2016

Diploma: no

Learning the basics of web development using technologies such as PHP, MySQL, JavaScript, HTML. I also learned more about database management, application management and application deployment.

MBO3 (Associate's degree) - IT Management, MBO College, Hilversum

June 2013 — July 2015

Diploma: no

I learned the basics of computer management and assembly/disassembly of computer systems (e.g. servers, towers etc.). This study also included an in-depth course on computer networking (CISCO CCNA).

VMBO-GL (High School Diploma), Wellant College, Naarden

June 2009 — July 2013

Diploma: yes
